

Our company, as a member of Senior Management International (SMI) is proud to announce a major expansion of interim management resources in and for Central Europe. Our Hungarian partner in SMI since 2003 has restructured and launched its operation for Central Europe.

The **Central European region** also experiences an **increasing demand** in Interim Management (IM) services. This is why **Interim Management Resourcing Ltd. (IMR)** was set up in January 2010, based in Budapest, Hungary. The company was founded by two senior partners having been active in the area of executive search and management consulting for 20 years and by the founding partner of the first local IM provider (with operational practice since 2003). IMR aims **to boost the interim management market** in Hungary and in Central Europe and to become a leading provider of such services.

What makes the IMR solution uniquely successful?

- The comprehensive and vast experience of the **partners and team of consultants**, complemented by an extensive network across the region.
- Our **pool of interim managers**, which contains the most experienced executives, directors and functional managers who gained their outstanding professional experiences in the most diverse businesses and business cultures.

IMR provides:

- * local, experienced interim managers
- * international interim managers
- Our interim management service is available for our clients **on a regional basis**, covering all of Central Europe. The first fully-fledged operation started in Hungary, IMR has interim management practices in Austria, Bulgaria, the Czech Republic, Poland, Rumania and Slovenia and we have resources for Croatia, Russia, Slovakia and Ukraine.

Interim Management Resourcing Ltd. provides its clients in Hungary and in the Central European region with high-quality **management solutions** to a wide range of business issues, ranging from **company developments/transitions/transformations or turnarounds**, to **filling a temporary management gap**.
